**Please return survey to the

This survey is being conducted by the Marilla Town Board to understand the needs and concerns of the people regarding open space resources. The survey should be viewed as an expression of the desires of the people of the community.

What is open space? Streams, playing fields, town parks, public gardens, cemeteries, wetlands, forest land and farmland all qualify as open space.

Why conserve open space? Poorly designed and unplanned development can permanently mar or destroy valuable natural and Cultural Resources that comprise the most attractive attributes of Marilla. However if we decide which areas should be retained as usable open space and which areas may be developed for more intensive use, then we will avoid damaging valuable open spaces and minimize costly and inefficient sprawl development.
